22nd Annual Bull Sale

MARCH 14, 2024

1:00 PM at our ranch near Whitehall, MT

WELCOME

Fellow Cattlemen,

Welcome to our annual production sale. A special thank you to all our past customers for your support and confidence in our program. For those of you not familiar with our outfit, we look forward to meeting you and will try to introduce ourselves and our operation to you.

We are a family owned and operated ranch with a lifetime of experience raising Angus cattle. With that experience, we have come to realize that our goals have changed very little over the course of time. Our goal has always been to provide you, our customer, with predictable, high performance and trouble-free genetics.

In order to make genetic progress in our cattle, our selection challenges need to be similar to those of our commercial customers. To accomplish this, we run our registered cows the same as our commercial cows. We range on large pastures of short-grass sagebrush country and mountain grass upwards of 7,500 feet. Environment has proven to be our best sorting stick, and our commercial customers appreciate the fact that we test our cattle in the real world.

We had excellent grass this year, the calves came home in good shape and weaned off well. We are excited to offer our first set of bulls from our new up and coming sire battery for your appraisal.

We have never jumped from one hot bull to the next resulting in inconsistent mongrelized genetics. Rather, our breeding philosophy is a disciplined system of mating our cattle from foundation proven bloodlines, breeding one like the next for generations, resulting in consistent, reliable genetics for those who run cattle in the real world.

This year we have again included inbreeding coefficients score in our catalog on the bulls selling. The higher the score the more homozygous gene pairs present than his non linebred counterparts. Linebreeding to a truly superior ancestor simply increases the pairs of homozygous genes making that individual more consistent and prepotent. We believe this to be a useful tool for our customers as they can cross these prepotent lines within their operations much like crossbreeding between breeds of cattle.

Our program will stay the course and continue to breed functional, top performance cattle for our environment. If you run a commercial outfit in the Rocky Mountain West, you can rest assured these cattle were developed with you in mind. We invite you to stop by anytime and look our offering over or feel free to call and visit about our program.

Thanks,
— *The Van Dyke's*

NEW BLOOD Our expectations for CAR LEGENDARY 026 were high when we purchased him as the high-selling bull at Connealy's 2021 sale. With a pedigree rich in proven genetics, outstanding structure and a top performance profile, we excitedly anticipated his addition to our program. He has not disappointed! His calves are proving him to be among the best in the breed. If you like them thick, long and correct in an easy calving, high-growth package- his calves deserve a look..

NEW BLOOD He was our top seller in 2021 sale and is proudly owned with MR Angus in WY. He is doing an outstanding job for us siring the kind of cattle that excel in our environment, deep-ribbed, heavy boned with

the kind of power you have come to expect from our program. Look to his sons to improve bone performance and do-ability. MAGA will see heavy use in our program.

Well represented in our sale through his sons and grandsons. His daughters also feature prominently in our herd. His is a proven sire, with thousands of calves born in commercial and registered operations. His sons

are recommended for calving ease and keeping mature cow size in check. He was PAP tested at 8,000 ft with a score of 41. Proudly owned with MR Angus.

NEW BLOOD Sired by the popular Kessler Commodore was our choice from MR Angus in 2021. He has exceeded our expectations for calving ease and growth. His calves come

easy, are very correct with good growth. He is proving to be a very complete bull. He was PAP tested at 8000 ft with a score of 36. Look to his sons for calving ease, big weaning weights also, a good choice for high altitude environments.

Inbreeding Coefficient (IBCE)

This year we have included inbreeding coefficients score. Linebreeding to a truly superior ancestor simply increases the pairs of homozygous genes making that individual more consistent and prepotent. We believe this to be a useful tool for our customers as they can cross these prepotent lines within their operations much like crossbreeding between breeds of cattle.

For Example: If a bull has an inbreeding coefficient of .25, he is expected to have 25 percent more homozygous gene pairs than a non-linebred individual from the same population.

2-YEAR-OLDS

New to the 2024 spring sale is our 2-year-old program. We made the decision to offer them in the spring rather than the fall. These bulls are the top cut from David's cow herd, carefully selected for raising 2-year-old bulls. These bulls are developed for those customers whom 2-year-olds are better suited. They are big, stout, and ready for heavy service.
